

Freedom Land Project

Central-West FL

Cory Edmund Endrulat

**Recorded in order to share with others.
This is for our community and the world.
We will take notes.**

Our 60-Second Pitch

We are looking to obtain 5 to 10 acres around Mid-West-Coast FL. We plan to design and install a self-sustainable local food forest. This system promotes the most amount of food in the least amount of land, with the lowest effort and zero waste, for higher quality and lower cost food. We want to provide amenities for tourism, education, bartering and social events, health and exercise practices, content creation, off-grid living and retreats. Doing partnerships with local businesses, farmers markets and nurseries, we will also work with Food Forest Abundance who has successfully implemented this model in many countries, and for different projects, being featured on many prominent networks. We want to grasp an opportunity in the growing market trend toward permaculture. We live in a world of uncertainty, with problems facing our economy and food supply. Our project is to put an emphasis on serving the community by promoting freedom and natural living, to additionally inspire the younger generations and connect the like-minded.

My Intentions

My vision is also yours.

Transparency & Honesty & Being Fair

We all have our own toolsets, let's work together!

Let's stick to our principles.

No pressure!

Possibles are endless,

From one project, we can help create others.

Business Objectives

- Obtaining around 10 acres of land, more or less, as donated or shared or bought around Odessa, Trinity and Keystone. Land inspection help provided by **CasaNova Design Group**. Funding and laboring provided by our **Florida United** network gathered online and from our monthly events in Tarpon Springs, connected through Telegram messenger and Zoom meetings.
- A beautiful flowery Food Forest of abundance provided within only 1-2 years, due to the use of permaculture principles and experts from the **Food Forest Abundance** team providing a self-sustaining, self-regenerating blueprint. Grazing cattle and water systems may be included. Besides the food grown, growing the tea plant family (*Camellia*) will be featured.
- Several off-grid (solar energy) Airbnb units within 1-2 years.
- Freedom, health and networking (*educational*) events each and every month at the location.
- With food provided by **Cahaba Farms** in Odessa, we provide a sacred place to feed the homeless and/or hungry, up to and after the growth of our Food Forest.
- Recorded videos and social media presence for international audiences each and every month at the location. This includes thousands of individuals across the world.
- Not all “products and services” listed below will be provided within the first 1-2 years.

Competitive Analysis

- St. Pete Eco village. *Strength: community garden. Weakness: lack of associated projects and events, not “freedom” specific.*
- Linwood community garden. *Strength: community garden. Weakness: lack of associated projects and events, no Airbnbs, not “freedom” specific.*
- Several local nurseries. *Strength: variety of plants. Weakness: lack of associated projects and events, not bringing in youth, not “freedom” or education specific.*
- Food forest abundance at Galt’s Landing. *Strength: main inspiration for our project, large variety of services. Weakness: lack of flowers and teas and college-youth-outreach, not based in west-FL*
- Starkey Market. *Strength: variety of products and events. Weakness: not “freedom” specific, lack of flowers and teas, no Airbnbs.*
- Cahaba farms. *Strength: high food production, large variety of services. Weakness: not “freedom” specific, lack of flowers and teas and college-youth-outreach.*
- Several tea-houses and coffee-shops. *Strength: social atmosphere for college-youth outreach. Weakness: not about growing food, not “freedom” specific, no Airbnbs.*

LAND VALUE

Florida Fastest-Growing State for First Time Since 1957

Florida's percentage gains since 1946 have been impressive: its 2022 population is just over 9 times its 1946 population of 2,440,000.

Legend Says Ancient Native American Blessing Has Protected Florida City From Hurricanes For Over 100 Years

There's a myth claiming Native American burial grounds have been blessing the Tampa Bay area for over a hundred years.

By Isaac Serna-Diez
Written on Aug 29, 2023

Land is an asset, as we build on it (more assets), it becomes even more secure.

We would be unique to Tampa.

This area is historically protected against hurricanes.

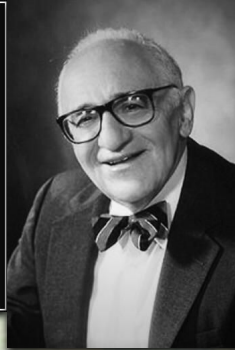

An Example Of True Capitalism

Free-market capitalism is a network of free and voluntary exchanges in which producers work, produce, and exchange their products for the products of others through prices voluntarily arrived at.

— Murray Rothbard —

AZ QUOTES

Since production must always precede predation, the free market is anterior to the State. The State has never been created by a "social contract"; it has always been born in conquest and exploitation.

MARCH 19th at 5pm we will attend the New Port Richey Public Hearing. PLEASE COME. This can help us in regards to our land project. I posted more info about this in older messages. However, in summary.. a friend Gunther said a "highschool property belongs in NPR, belongs to the public and therefore should be used as per the people's desire, not per bureaucrats questionable dreams." Developers are taking over, doing deals with the gov, and people r trying to stop it. He is referring to a school from 1922, which I will attach info about he sent to me; this school can involve our food forest projects, potentially. In general, it's also a good networking opportunity. Other than this, I will update u guys after the 6th, where I do a meeting with some land owners.

Thank You!

508c1a Ministry Benefits - 1

1. **Operate in complete privacy.** Since the SSM is **not** incorporated, it is a *private*, lawful entity that is the "exception" rather than being "exempt" from regulation regarding all entities controlled by the government which includes **all** 501(c)3 corporations. Therefore, you can now lawfully operate in complete privacy.
2. **Receive an income tax deduction.** All donations made to your SSM from yourself, friends, relatives, clients, patients and fund raising events are fully deductible from the donor's taxes as provided by law.
3. **Remove assets from other taxation.** All gifts (donations), to your SSM are removed from Estate, Gift and Capital Gains tax exposure.
4. **Receive donations or gifts of all kinds of assets.** Your SSM may accept donations of all kinds of assets. (Real property, stocks, vehicles, boats, planes, clothing, furniture and money.)
5. **Receive funds from deferred gifts.** Your SSM may receive donations from wills, trusts, life insurance or any other deferred gift.
6. **Immune from liability of lawsuits.** By placing all of your assets into a SSM, attorneys will have a hard time trying to collect any judgments against you personally. (If they can collect anything at all.) As the saying goes, "You can't get blood out of a turnip".

508c1a Ministry Benefits - 2

- 7. Reduce you own personal tax liability.** By placing your "income" into your SSM, your own personal tax liability will be reduced. This can be done by having your employer make the payroll checks out in the name of the SSM or wire the funds directly to the SSM's bank account.
- 8. Reduce your business's tax liability.** By making the SSM the lawful owner of most of the stock or ownership in an existing business, your business's tax liability will decrease.
- 9. Open bank accounts all over the world.** There is no need to have an "off-shore" trust or corporation since a SSM is allowed to exist all over the globe. However, one may have to physically open the account in another country and give the bank a local address for your SSM.
- 10. Gifting to other Countries.** U.S. Taxpayers cannot deduct gifts to overseas charitable projects unless they do so through another charitable entity such as the SSM.

508c1a Ministry Benefits - 3

11. **Personal compensation for the work you do.** A SSM is allowed to provide for the payment of anyone that works for it. This can be done by using the "Workers Contract" that is provided in all of the Self Supported Ministries provided by Dr. R. J. Humpal. Since FRNs (Federal Reserve Notes) are used as "payment" (exchange), the transaction should not be a taxable event according to United States Codes. FRNs are "Obligations of the United States". "Obligations" are not taxable, unless you or your entity is a corporation or a *public* organization.
12. **Allow your SSM to make the payment for all expenses.** All expenses that are required for the operation and growth of the SSM are allowed. Yes, you can have the SSM pay for all of your transportation, clothing, food, and shelter. (Remember, you are working for God now.)
13. **Bank accounts are private.** The checking account set up for the SSM does not have any social security number associated with it. However, the bank may want to check your own social security for personal identification only. Every bank should open up an account without having any "DBA" associated with it. Remember, the SSM is not a business in the commercial world.
14. **You are in control.** Since there is no "trustee" or "office of the president" involved in the SSM, you can be directly involved with all of the legal transactions regarding the SSM.
15. **No ending date for the SSM.** The SSM does not have a date where it comes to an end. There is no ending date for any reporting because there is nothing to report.

508c1a Ministry Benefits - 4

16. **Not taxable.** The SSM is not required to file ANY tax return.
17. **Non-political.** The SSM is not political in any manner even though it may be "created" by contract somewhere in the united states of America. However, the SSM may write or verbally "report" to others regarding the truth or opinion of any matter going on world-wide.
18. **May be funded or supported by other businesses.** Since the SSM is just that--a SELF-SUPPORTED Ministry--to survive, it *must* be supported/financed by activities that make money. This can be done by having some or all of your "supporting business" profits go directly into the account of the SSM. In fact, the SSM itself can, and should have activities that support itself. Remember, the SSM is *SELF-SUPPORTED!*
19. **Not regulated by the Government for corporations.** Remember the Amish? They can build what they want on their property without "code enforcement" from the government. They do not need licenses to operate. They are left alone by the government. The SSM should be operated just like they operate their "work". If they can do "it", then the SSM can do "it".
20. **Your self-esteem.** Your light should shine among men so that they might see what you do. If everyone who calls himself a Christian would have his own SSM, there would be a lot more money for the Church (God's people). Now you are actually working for God, rather than for "men". This will have a great effect on one's attitude. After all, Christ said "Carry your OWN cross". We should not to

508c1a Ministry Benefits - 5

let someone else carry it. Now you're "giving" is not just a tenth. It is now EVERYTHING that you have, own, and will do. (Get the picture?)

21. **Your ability to influence your children.** Many who have a SSM enjoy the opportunity to impact their families by "leading by example" not only in the home, but also in their church and community. You can now add "significance" to your lifetime of work.

22. **Other considerations.** Perhaps the worst thing for an older person to have are assets. Many older people have had all of their hard earned assets levied on and actually had them taken (stolen) by the government by being admitted to a health care facility. If one is wealthy, the wealth can actually be "used" up quite fast and nothing will be left for their heirs. By placing all of their assets, *ahead of time*, into a SSM, they can now lawfully state that they do not "own" anything and can now be fully covered by federal and/or state coverage. (Medicare) If they are in need of anything, the SSM can take care of them. The SSM can be managed by them until their designated successor takes over. Remember, the SSM does not die. It can "live" forever.

In a location local to Trinity, Odessa and Keystone. This would make it a special hotspot local to Tampa, and a place protected from Hurricanes.

To also reach the youth, my generation. To share what they weren't taught, to feel nature, to empower them and provide a social environment.

Now is the best time to get on this trend and help people get prepared for the future.
